

Tri-city College Prep High School Tablet Program Handbook

The focus of the Tablet Initiative at Tri-city College Prep High School is to prepare students for their future, a world of digital technology and information. Increasing access to technology is essential for that future, and the learning tool of these twenty-first century skills is the Tablet computer.

Tri-city College Prep High School will work to create a learning environment that has a 21st century curriculum, one that is relevant and provides a real-world education. Students will develop skills in the following areas:

- Information/Research
- Communication
- Thinking and problem-solving
- Interpersonal
- Self-direction

The individual use of Tablets is a way to empower students to learn at their full potential and to prepare them for the real world of college and the workplace. Interaction among students, educators, parents and the extended community enhances learning. Technology immersion does not diminish the vital role of the teacher. On the contrary, it expands the role of teacher as director of learning to include being a facilitator of learning. The Tablet Initiative integrates technology into the curriculum anytime, anyplace.

The policies, procedures and information within this document apply to all Tablets used at Tri-city College Prep High School, including any other device considered by the administration to come under this policy.

Teachers may set additional requirements and restrictions for computer use in their classroom.

11. TABLET FAQ'S

1. What if I already have another model or brand of Tablet computer? You will be required to use the school district issued Tablet for school purposes. This is necessary to ensure that you have a computer that gives you network capability and the ability to run the software that you will need in your courses. The Tri-city College Prep School is also limited to provide maintenance service or assistance for only the Tablet we provide.

2. Do I have to participate in the Tablet program? No. A parent or student may opt out of being part of the Tablet program all together. If you choose not to be part of the Tablet program you will still be responsible for all assignments; alternative assignments may have to be made for a student who doesn't have a Tablet. Teachers and/or administration will be solely responsible for deciding these alternative assignments. Student not participating in the Tablet program may still use a school laptop computer at school only when deemed necessary by a teacher. Personal Tablets and/or computers are not an acceptable alternative for the Tablet program.

3. What about insurance against theft or breakage through carelessness? Your Tablet computer is very portable and very valuable, making it an attractive target for thieves. At this time Tri-city College Prep High School does not have an insurance policy for purchase. The best insurance is to take care of your Tablet. Do not leave your Tablet in the building, classroom, lobby, or car unattended. Always know where your Tablet is located! Above all, take your Tablet home each night. The contracted user is ultimately responsible for their Tablet.

There are some independent insurance and options you may be able to purchase not related to the school. Please see IT Staff for details if you are interested. You may also check your home owners' policy for some types of coverage.

You will be able to apply for a loaner unit at the IT Office, the same area where you will go for service on your Tablet computer. If you are in possession of a loaner, treat it as if it were your own computer. You will be responsible for any damage to the unit or for its loss. If one is not available or the user is not eligible for a loaner due to disciplinary action alternate assignments/arrangements will be made by administration.

5. Do I need a printer? You need not own one since printers are located in computer lab. If you want to connect to a printer at home with the school Tablet, you will need to use the Windows Printer Wizard program on the Tablet to install any personal printer. Not all printers may be compatible with these Tablets.

6. Will there be facilities to back up the files I create on my Tablet? No. You are responsible for all back up of your personal documents, files, etc. All the Tablets come with a USB Port that users can use to back up their Tablets. 10. What has the school done to help prevent students from going to inappropriate sites? On campus, students are subject to the same lock downs and firewall restrictions on the Tablets as they would be on any other school device. When the Tablet is on another network, like when the students are on their home network, it is the responsibility of the student user and/or parents to monitor use. If students are found violating any school policies using the Tablet, including going to inappropriate sites, they will be subject to disciplinary action. Any inappropriate material on Tablets should be reported to the classroom teacher, administration, or IT Office immediately upon identification.
