

## **TCP Locker Use Agreement**

I, \_\_\_\_\_ (print name legibly) agree to abide by the following standards for locker use. I understand locker use is a privilege and that privilege may be revoked at the discretion of the administration.

- Lockers must remain in pristine condition. It is not acceptable to mar the lockers with writing, tape or any other product that may leave a mark on the interior or exterior of the locker.
- Jamming of the locks and denting of the lockers is not permitted.
- Damage done to a locker will result in a monetary fine and mandatory replacement of the entire block of nine lockers.
- Students may use temporary shelving and mirrors attached by magnets.
- Students are responsible for the contents of their locker at all times.
- Students will clean out their locker at the end of each school year.
- Students may request a locker change that may be granted based on availability and need as determined by the administration.
- TCP retains ownership of the lockers and the right to open any locker at any time.
